We encourage all students, parents, and staff to take common-sense precautions to prevent the spread of all infectious diseases, including common illnesses like colds and flu.

- Encourage students and staff to stay home when they are sick.
- Those who have a fever at school should go home and stay home until at least 24 hours after they no longer have a fever without the use of fever-reducing medicine.
- Separate sick students and staff from others, ideally in a separate place, until they can be picked up to go home.
- Promote hand hygiene among students and staff through education, scheduled time for hand washing, and availability of soap and water or hand sanitizer.
- Avoid touching your face, particularly your eyes, nose, and mouth.
- Teach and encourage proper cough etiquette—cough or sneeze into a tissue, sleeve, or arm (do not use hands).
- Perform routine surface cleaning.
- Consider not attending large gatherings, as this is where cold, flu, and other respiratory viruses often spread.
